

Cybersecurity & Information Assurance Services

Why Leneer?

Leneer Data Assurance Solutions (LDAS), founded in 2008, with offices located in Washington, D.C. and Florida is a certified HUBZone and Small Disadvantaged Minority Owned Business. LDAS has three operational areas: Medical and IT Staffing, Cybersecurity and Information Assurance, and Management Training and Consulting. We focus on fulfilling the unique needs of individual clients, candidates, and employees to deliver services on time at competitive rates. The staff at LDAS is well versed in the processes needed to perform work for the U.S. Government, including, but not limited to, project management, capital and strategic planning, performance and data management, information sharing and security, training, business process re-engineering, program management along with IT and medical staffing support.
